## The Conservation Pledge

*I pledge to protect and preserve the natural resources of the planet Earth, and promise to promote education so we may become caretakers of our air, water, land, forest, and wildlife.*

## Martin Donohoe's Book

If you can afford to buy just one book this year, *Public Health and Social Justice* is the Editor's choice. The ISBN is 978-1-1180-8814-2 and it retails for \$85.00 in Paperback. For a 20 percent discount use code MPH20 and order at <http://www.josseybass.com> or by phone 800.956.7739. It connects the dots between health and social justice. It will appeal to health professionals, medical students, and the lay public. Grandmothers and others, this is a must-read. It is endorsed by:

Hunter Doherty Adams, MD  
Founder, The Gesundheit! Institute

Shafik Dharamsi, PhD  
Faculty of medicine, University of British Columbia

Paul Farmer, MD, PhD  
Professor at Kolokotronis University  
Chair, Harvard Medical School's "Department of Global Health and Social Medicine"  
Co-Founder of *Partners in Health*

Nicolas Freudenberg, Dr.PH  
Distinguished Professor of Public Health,  
"The City University of New York School of Public Health" at Hunter College

Catherine Thomasson, MD  
Executive Director, Physicians for Social Responsibility

Howard Waitzkin, MD, PhD  
Distinguished Professor Emeritus, University of New Mexico

.....

### A Call to Conscience!

*Toledo*, OHIO's 500,000 people received warning to not drink water from *Lake Erie*. The **Chemical Industry's** CHEMICAL FERTILIZERS has poisoned the lake, causing *Algae* bloom. Who profits from man-made disasters like this.

In addition to OHIO's water crisis, the *Center for Disease Control* has warned the citizenry of MAINE about the presence of *Radon*, *Uranium*, and other *contaminants in their water*. The American People are told to get their water tested.

What is the Obama Administration doing to hold the *Federal Regulatory Agencies* responsible. This is a *Call to Conscience!*

(Sources: Volume 34, issues 3 and 4, Back Covers of HEALING OUR WORLD, by the Hippocrates Health Institute, "*Toledo, Ohio*" and "*Maine CDC*")

### Ashland, OREGON's Secret Crisis

If you live or work in the *Oregon Shakespeare Festival* town of *Ashland*, OREGON, you might want to get your blood and urine tested for *Thallium levels*. Too many Ashlanders have *Cancer* and *Morgellon's Disease* with high levels of *Thallium* according to [lahurst@gmail.com](mailto:lahurst@gmail.com).

Low exposure to *Thallium poisoning* is slow-acting, painful, and has a wide-range of symptoms, suggestive of a host of other conditions and illnesses. High levels kill you.

Wikipedia lists *Thallium* as a "*Weapon of Murder*". *Thallium's* nickname is the "*Poisoner's Poison*" because it is colorless, odorless, and tasteless. Some hair loss is one of the first indications of *Thallium* poisoning. *Thallium* is also a suspected carcinogen.

An Internet search has found that *Thallium* is being mined and sold in *Ashland*, OREGON. The large rock quarry area on the south end of the city, on *Benson Way*, in *Ashland*, OREGON, lists their *Thallium Supplier* as *Thomas.Net* in their *Material Safety Data Sheet I Product Identification Manufactuer Supplier* list.

<http://www.thomasnet.com/products/thallium-84882604-1.html-ViewbyIxquickProxy-Highlight>

The Internet search also found out that *Thallium* service companies, distributors, and manufacturers are listed as ESPICORP INCORPORATED in *Ashland*, OREGON! ESPICORP INCORPORATED owns the *Aquafier*. **The Southern Oregon Blue Skies Project speculates that *Thallium* is added to the city's water.**

<http://www.goodfellowusa.com/A/Thallium.html>

January 20, 2015

Page 3

Back in the day before *Thallium's* deadly toxicity to human health was made known to most countries of the world, *Thallium* was used as ant and rat poison.

**If the *Southern Oregon Blue Skies Project* conjecture is correct and *Thallium* is being put into *Ashland's* water, then drinking tap water, taking baths, showering, or washing ones hands may be a dangerous health risk. *Thallium* compounds are highly water-soluble, and are readily absorbed through the skin.**

[https://en.wikipedia.org/wiki/Thallium\\_poisoning](https://en.wikipedia.org/wiki/Thallium_poisoning)

Because of *Ashland's* many *Cancer* and *Morgellon's* sufferers it would behoove the *Oregon Health Department* and the *Environmental Protection Agency* (EPA) to test the *Water Treatment* to investigate exactly what is added to *Ashland's* water and precisely how much is added every day. *May our physical bodies support us with strength.*

The Internet claims the antidote to *Thallium* is *Prussian Blue*, if anyone knows what it is. These statements have not been evaluated by the FDA. See additional waivers at the end of this newsletter.

Will Thomas

One can still do an internet search for <http://www.rense.com> and read a June 10, 2003 transcript of *Stephen Smith Leiper's* interview with Veteran Investigative Reporter *Will Thomas*. It is entitled, "*Chemtrail Update with Will Thomas*". *Mr. Thomas* is author of the book *Chemtrails Confirmed*.

The transcript gives *Mr. Thomas's* 866.470.0740 phone number to order books or videos, or see <http://www.Lifeboatnews.com> or <http://www.WillThomas.net>.

The 2003 transcript claims it was *Edward Teller's* idea to try to shield EARTH from *Global Warming* with spraying, and years ago *Mike Castle* uncovered the early *Hughes Aircraft* patent, confirming that *Welsbach* materials and *Metal Oxides* were to be released into the sky at a 35,000 high altitude for dispersion over wide-areas. Here it is:

On March 26, 1991, *Chang, et al.* obtained United States Patent 5,003,186 for "*Stratospheric Welsbach Seeding for reduction of global warming*". *David B. Chang* of *Tustin, CALIFORNIA*, and *I-Fu Shih* of *Los Alamitos, CALIFORNIA*, were the inventors and the assignee was **Hughes Aircraft Company** (Los Angeles, CA).

*Aluminum Oxide* was one of the recommended Oxides. Another was *Thorium Oxide*. *Thorium Oxide* is actually *Thorium Dioxide*. *Thorianite* is its mineralogical form. It is white and is a byproduct of *Lanthanide* and *Uranium* production. It is insoluble in alkali, or in water, but is slightly soluble in acid.

January 20, 2015

Page 4

While non-flammable, its *Fluorite Crystal* structure has a melting point of 3300 degrees Celsius. Only *Carbon*, *Tungsten*, and *Tantalum Carbide* have higher melting points. Related compounds are *Hafnium Oxide*, *Cerium Oxide*, *Protactinium Oxide*, and *Uranium Oxide*.

The *Leiper* and *Thomas* posting informed that the *USA Air Force* claims it shall control *all* weather by 2025. But *Global Geoengineering Dominance* is destroying the *Ozone Layer*. The increased cloud cover is making the atmosphere unstable. Planetary changes are taking place in the *Ocean*, where circulation patterns are changing, causing new storms to spawn. *Barium* and other Nano-Particulates in the air are drying up available moisture, intensifying drought conditions over the land.

A better plan might have been to cut carbon consumption and transition to alternative fuels. Apparently the *Oil Mafia* did not want to cut back on petroleum pollution and profits. Big *Oil Cartels* preferred to carry on business as usual. Oil is one of the biggest Industries on the Planet. But *Insurance* is even bigger.

When *Will Thomas* was interviewed back in 2003, he predicted that if the *Insurers* go down, then *Big Banks* and *Money Markets* come to a stop. These two cartels may come to blows as one profits and the other faces bankruptcy.

*Mr. Thomas* also divulged in 2003 that *Clifford Carnicom* had made the point that Satellites offer too much delay, in seconds of time, to fly pilotless drones. *Mr. Carnicom* suggested *Barium* might act like an electrolyte. If *Barium* were sprayed over cities, then that might be how to charge the atmosphere in order to turn it into a plasma state that could be energized. Then electrical energy from radar and radio could be conducted over the horizon to fly pilotless drones.

It's a dozen year later and now there are *Unmanned Drones*. But the *Keystone XL* and the *LNG pipeline* loom on the horizon. Do the *Fracking* and *Natural Gas Barons* not have grandchildren? Generations X, Y, and Z must not be this generation's *Collateral Damage*!

Change can no longer be gradual. For more information visit the website <http://www.350.org> . *Fossil Fuels* must be kept in the ground! Nature must be allowed to heal her *Ozone Layer*!

#### Earth Dominance Is Here Now

*Elana Freeland*, author of *Chemtrails*, *HAARP*, and the *Full Spectrum Dominance of Planet Earth* gave a presentation in OREGON. Her website is <http://www.thefreeland.me>.

If you would like information about what is occurring in the sky above you, [www.GeoengineeringWatch.org](http://www.GeoengineeringWatch.org) has a flier, "Systems and Methods for Aerial Dispersion of Materials" and reveals that Patent Number 7413145 was filed by the CIA's EVERGREEN AIR.

### Geo-Engineering Documentaries

*Look Up!* by George Barnes

<http://www.skyderalert.com>

*What in the World Are They Spraying*, by Michael Murphy

*Why in the World Are They Spraying*, by Michael Murphy

[www.WhyinTheWorldAreTheySpraying.com](http://www.WhyinTheWorldAreTheySpraying.com)

*Geoengineering Why You Should Care* by Dane Wigington

<http://www.GeoengineeringWatch.org>

According to the documentaries very high levels of *Aluminum, Barium, Cadmium, and Strontium* may have been linked to *Asthma, Alzheimer's, Blurred Vision, Cancer, Headaches, Immune System Decline, Weakness, Skin Disorders, or Ringing in the Ears.*

If you, or someone you know, is experiencing any of those symptoms a person may request blood and urine laboratory tests to find out if one is suffering from heavy metal toxicity.

Another helpful resource is <http://www.ConsciousnessBeyondChemtails.com>.

### The Western Lands Project

*The Western Lands Project* in Seattle, WASHINGTON, monitors public-lands policy. Findings are that stimulus dollars set off a solar land rush in the *Mojave* desert. The federal government loaned \$1.6 billion to subsidize *Bright-Source, Google, and NRG Energy* to build the world's largest arrays of Industrial solar panels in the *Mojave Desert*, instead of putting stimulus dollars into developing small-scale rooftop solar for big-box stores, homes, parking lots, and warehouses.

Desert soils contained vast stores of carbon that was unleashed by construction of the *Ivanpah* solar farm. The environmental approval process was rushed through in order to scrape and bulldoze. This loss of inorganic and organic carbon sequestered by desert native ecosystems may have negated any savings of carbon-dioxide emissions. It also takes a lot of natural gas to run the facility when the sun doesn't shine, and migratory *Birds* and *Monarch Butterflies* are ignited in mid-air.

Does this show regard for the EARTH and all her sentient beings.

(Source: September 7, 2014, SAN FRANCISCO CHRONICLE, "*Solar farms drawing fire*" by Carolyn Lochhead)

### Planetary Change

The *Large Scale Solar Association* represents utility-scale solar plants and more projects are proposed. The *Renewable Energy Conservation Plan* will cover 22.5 million acres of private & public lands in CALIFORNIA.

The federal *Bureau of Land Management* will separately review each of the following proposals for large new developments proposed at *Silurian Valley* near *Death Valley*, at *Soda Mountain* near the *Mojave National Preserve*, and an even bigger version of **Ivanpah** at *Palen*, near the *Joshua Tree National Park*.

(Source: September 7, 2014, SAN FRANCISCO CHRONICLE, “Solar farms drawing fire” by Carolyn Lochhead)

We Shall Overcome Some Day

*Eco-Community Dialogues* newsletters are a FREE community service, available by request, at the *A Street Print & Parcel* across from *ACE* hardware, in *Ashland*, OREGON. The print shop only charges for paper and ink, or will download the entire PDF file of current and back issues onto people’s zip drives to read off their computers and save paper and ink. It’s up to you to provide your own zip drive. The Print and Parcel store might be able to send you the newsletters by PDF email attachment, so you can forward it to your friends. Ask *Steve* about available options and choices.
